The hospital provides the Latest Plastic, Reconstructive Surgical and Cosmetic Care for patients. Our unique reputation draws patients from all parts of India and the neighbouring countries.

SMH has most advanced equipment for complicated Reconstructive Surgeries.

Cosmetic Surgery is performed to reshape normal structures of the body in order to improve a patient's appearance and self-esteem. Among the various procedures being done at the hospital include: Nose Reshaping, Face Lift, Liposuction, Abdominoplasty and various modalities concerning breasts such as Mammoplasty and Reconstruction.

Our Plastic Surgeons have a considerable expertise in craniofacial operations, Repair of Clefts, Microvascular Surgery, Hypospadius, Head and Neck Injuries, Cosmetic, Burns and Hand Injury cases. We have not only succeeded in replantation of cut-off fingers and thumb, even burn cases of over 60% have been treated successfully.

Our Plastic Surgeons, working closely with orthopaedic and neurosurgical experts, have been managing poly-trauma with extensive avulsion injuries, maxillofacial fractures and flap cover for compound fracture of limbs. Also, complex cases such as abdominoplasties, Reconstruction of Vagina and Recanalisation are carried out in support with Gynaecology Surgeons.
Laser Surgery, Liposuction, Hair Removal and other Cosmetic Surgeries are also being taken up at the hospital.
